

2023 IB PYP Action Plan

Date: March 2023
Evaluation and Review: February 2024

Teachers will use the Toddle Unit Flow:

- provocation, pre-assessment, beginning learning experiences (tuning in, finding out, sorting out),
- further learning experiences (going further, making conclusions / sharing),
- formative assessments, summative assessment and action,

with fidelity to design inquiry-based learning experiences and authentic assessments.

Challenge of Practice

If we develop each teacher's skills and knowledge in inquiry-based teaching strategies and programming of learning engagements, then we will be able to use inquiry, action and reflection to develop natural curiosity in students.

2023 IB PYP Action Plan Goals

- 1) Every teacher will use each stage of Toddle's Unit Flow to plan and document inquiry-based learning experiences and authentic formative and summative assessments.
- 2) Each teacher will use learning experiences that align to each stage of Toddle's Unit Flow to engage students in authentic inquiry.
- 3) Each teacher will inspire natural curiosity in students through engaging learning experiences and investigations.
